

Function	<p>The patented BorderShield edge profile is an anti-tipping safety system designed for perimeter tiles in outdoor raised flooring. It simplifies the installation of small-format tiles or tile cuts along the perimeter, preventing accidental movement or tipping.</p> <p>To ensure maximum stability, the system features a secure connection to the heads of Impertek supports and includes an integrated, height-adjustable safety support that adapts to the profile height (up to 470 mm). The through-holes allow for height adjustments of the supports even after installation, ensuring proper leveling of the surface below. Thanks to the dual-point joints at both ends, the profile can be installed continuously and uniformly, while maintaining full inspectability and allowing easy access for maintenance or intervention. The system's versatility is further enhanced by its ability to be cut to length to fit perimeter shapes, its compatibility with "L" profiles for edge finishing, and the option to glue BorderShield directly to the tiles.</p>		
Compatibility	Supports featuring QuickOn heads (BalancePro, MiniPro, Lunar) and ClickRail heads.		
Range	-		
Performance	<p>The material used to produce the BorderShield offers good resistance to acid and alkaline solutions, as well as to atmospheric agents such as harsh weather conditions, air exposure and UV rays.</p> <p>Fire reaction classification: E(fl).</p> <p>The mechanical properties remain unchanged over time.</p>		
Operating temperature	-40°C; +75°C		
Included accessories:	Safety support	Recycled product	No
Optional accessories:	GravitySpacer	Recyclable product	Yes
		Material	PP-T20%

Additional information

If not otherwise indicated, all measurements are expressed in millimetres.
 All dimensions indicated are average values typical of the product and they are not specific of a single batch. All information contained in this document is purely indicative and it is based on the knowledge of Impertek at the date of publication. It is responsibility of the buyer to judge if the product is suitable for the expected purpose.
