HOW TO USE

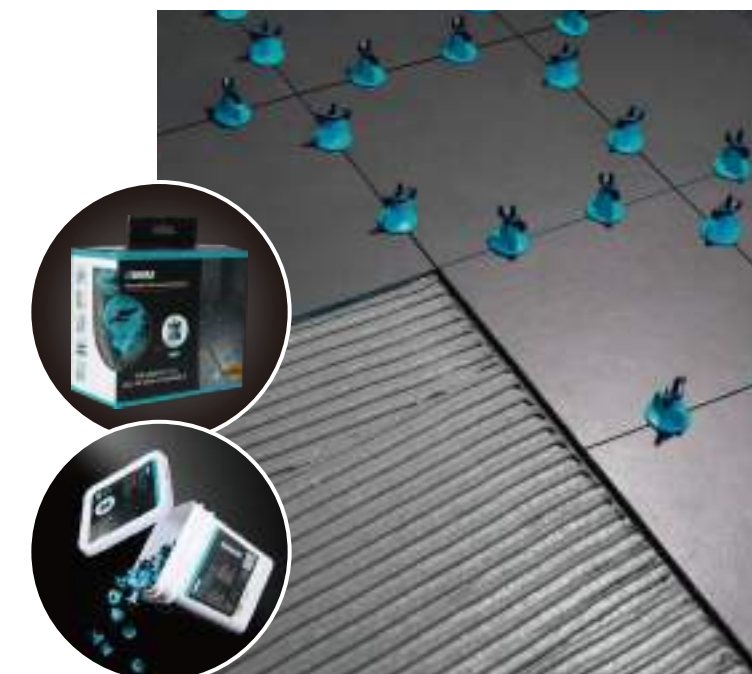

1 Insert T-pin parallel into the grout joint
(For a wider joint, use classic spacers together)

2 Hold the blue cap in 90° position and spin down the gray handle

3 Twist the gray handle down to the required level
(no tools needed)

4 Return parallel back for 90° to the grout joint for reuse
(Note: remove immediately after the grout has cured, referring to the manufacturer's instruction, no more than 6 hours.)
