

For Balance Pro supports

Function	The Pocket Key offers the possibility to adjust the height of the Balance Pro supports installed and already with tiles placed in their final location. It consists of an ergonomic handle and a shank whose tip has a perfect configuration able to fit into the 4 mm thick joints between the tiles and fit into the special housing on the top of all the screws, thus allowing the millimeter adjustment of the support height.		
Compatibility	Balance Pro H10 SP4 head and all the Balance Pro screws.		
Range	-		
Performance	The materials used to produce Balance Pro keys have been specially designed to give them high torsional and corrosion resistance. Their mechanical features stay the same over time. Ease of use and time saving in micro-adjustment of the supports.		
Operating temperature	-		
Included accessories:	-	Recycled product	No
Optional accessories:	-	Recyclable product	Yes
	-	Material	Sheet C67
	-		
	-
